

# 2018 KCER Summit

**When:** Wednesday, February 14, 2018  
8 a.m.–noon

**Where:** Baltimore Marriott Waterfront Hotel  
700 Aliceanna Street  
Baltimore, MD 21202

**What:** Emergencies can happen with little or no notice. Each partner from the kidney community plays a critical role in the event of a disaster. The KCER Summit is being held in conjunction with the 2018 Centers for Medicare & Medicaid Services (CMS) Quality Conference. It is held annually to bring together stakeholders in end stage renal disease (ESRD) emergency preparedness, including CMS, ESRD Networks, providers, large dialysis organization (LDO) corporate leadership, patients, emergency management personnel, hospitals, Departments of Health, utility providers, and transportation companies. The 2018 Summit will highlight personal stories from stakeholders that were impacted by the unprecedented 2017 hurricane season, and includes a discussion about roles of different federal partners during a disaster.

Please register now for the 2018 KCER Summit, as we continue the important collaborative work of preparedness and response in the renal community.
